

Model : HCD400A

Rated heating current 100% $I_{th}=400A$
 Maximum contact voltage (inductive load)
 No blowing magnetic 80V D.C.
 Touch point pressure drop 100A < 40mV
 Mechanical life >300000次
 Electricity life >100000次
 Coil power consumption
 Intermittent working system 6-8Watts
 Long-term work system 4-6 Watts
 Intermittent-type suction-closing voltage 60%V
 Continuous-type suction and closing voltage 66%V
 Release voltage 5-40%V
 Touch jitter time < 4ms
 Weight : 1050g
 Allowable working environment:
 -40°C ~ +60°C
 Allowed storage and transportation environment:
 -40°C ~ +85°C
